SIGN UP for the afterschool CHESS and/or SCIENCE CLASS TODAY!

All levels are welcome, from beginning to advanced! Space is limited!

---Session Description---

- During the 6-week session of afterschool chess, each child shall receive a magnetic chess set, weekly chess lessons, and a chess trophy for participating. The title of this session is called "Kids Defeat Chessmasters." In the session, we will examine and learn from amazing chess games in which young children defeated top-ranked chessmasters!
- During the science portion of the class, students will undertake science projects that they will often put together themselves. A detailed lecture will precede each project so that the students understand the scientific principles involved in each activity. Students will also receive worksheets and will have the opportunity to earn a science medal as well.
- Students may sign up for either chess or science, or both classes.
 - Here is the schedule of science lessons and/or projects:
 - Week 1: Magnetism
 - Week 2: The Human Skeleton
 - Week 3: Make Your Own Volcano
 - Week 4: Waves of the Ocean
 - Week 5: Soda Car Racers
 - Week 6: Ultraviolet Light and Science Bowl
