SIGN UP for the afterschool CHESS and/or SCIENCE CLASS TODAY!

All levels are welcome, from beginner to advanced! Space is limited!

---Session Description---

- During the 8-week session of afterschool chess, each child shall receive a magnetic chess set, weekly chess lessons, and a chess medal for participating. The title of this session is called "Amazing Blunders." In it, we will study and learn from some of the most surprising mistakes in chess history. As usual, all levels are welcome, from beginner to advanced!
- During the science portion of the class, students will undertake science projects that they will often put together themselves. A detailed lecture will precede each project so that the students understand the scientific principles involved in each activity. Students will also receive worksheets and will have the opportunity to earn a science medal as well.
- Students may sign up for either chess or science, or both classes.

❖ Here is the schedule of science lessons and/or projects:

Week 1: Water Marbles	Week 5: Parachutes
Week 2: Magnifying Glass	Week 6: Color Streaks
Week 3: Smashing Geodes	Week 7: Magnetism
Week 4: Sugar Cube Architecture	Week 8: Make Your Own Volcano and Science Bowl
